

## STRIKE ON THE COMSTOCK UNION MAY MEAN VALUABLE OREBODY

Hermann Zedig is directly interested in reports of the big strike on the Union of Virginia City as that was one of the properties in which his firm played a prominent part in the early days. In proof of this Mr. Zedig displays an old fashioned gold watch richly chased and studded with diamonds which he received from F. Steiner, September, 1878, in proof of the gratitude of the donor for having been given a tip on Union that netted him a handsome sum. The man bought Union at \$4 a share and sold out at \$200 a share. The watch was the object of some interest last evening at the Mizpah hotel where a chance inquiry from one of the group elicited the information coupled with

a sight of the watch which the wearer says he would not part with for one of greater intrinsic value.

Mr. Zedig has just come from the scene of the Union strike and says it is one of the most important that could have been made since it is likely to lead to the development of a new and rich orebody. The Union had been developed and thoroughly prospected down to the 2,400 level, but the finding of a body of ore on the 2,700 level east of all former workings and below the old levels of the Union and Sierra Nevada indicates the opening of a new orebody since all previous work was done west of this. Last week the Union had opened 12 feet of \$60 ore.

## HOW TO RAISE FUNDS FOR WAR

GERMANS WILL NOT STAND FOR  
ADDITIONAL TOLLS ON LET-  
TERS AND TELEGRAMS

(By Associated Press.)  
BERLIN, May 30.—A proposal by the government to increase postal and telegraph rates in order to add to its revenue has met with opposition from papers that believe the public will defeat the object of the plan by writing fewer letters, but also from publications which maintain that higher telegraph tolls will put Germany at an increased disadvantage in its efforts to place its case before the neutral world.

Telegraph rates, insofar as they concern the newspapers, should be reduced rather than raised, it is contended. The papers seem to be unanimous in a belief that Germany in the past has neglected rather than recognized the value of facilitating means of getting German news to the rest of the world, and of receiving the news of the world in return.

## DIVIDING SAVING FROM A TUNNEL

IN DRIVING FOR OLD LEDGE, RUN  
INTO A RICH  
VEIN

Ore of the sort that looks good enough to eat is being taken from the lower tunnel of the Tonopah Divide Mining company at Gold Mountain by two leasers, Messrs. Grimes and Hanson. These tributers have been shipping from a winze on an upper level for several months, getting excellent returns. They started a drive from the lower tunnel to pick up the ledge on its downward continuation, but ran into a vein long before the anticipated ledge could have been encountered. It is something absolutely new and is much better than the stuff they were sinking on above.

Up to today they have only advanced three feet into the ledge as everything that comes out is going into the sacks, after having been tried by mortar and pestle. Some of it throws colors that are estimated at \$500 to the ton, while they think the average will exceed \$60. It is a crushed up quartz, heavily stained. Where the sulphides have yielded to oxygen the bug holes show a myriad of fine colors. This is a peculiar ledge for the Gold Hill section, inasmuch as it is talc gouged. It has every appearance of permanency. George Wingfield and H. Cal Brongher are the principal shareholders in the Tonopah Divide Mining company. Billie Taylor is considerably worked up over the discovery as he has a group of claims into which the new ledge is apparently trending. The strike was made five miles and a half south of Tonopah on the Goldfield road.

### African Fashion Notes.

The prettiest dress of the Mpongwe woman is a cloth drawn up under the arms, a scarf on the shoulders and a handkerchief folded over the collar in a high stiff fold set well up on the head, rather like a child's idea of a crown. There is a great fancy for purples and lavenders set off with shades of rose and red and a sudden keen note of gilt. With black there will be a touch of most delicious bright green. A cloth and a scarf worn by a woman of beautiful figure and a Gabonaise is always that—have a certain mutable charm; the movements of the body, the wind that blows from the sea—these renew and display the folds of the garment so that the eye is intrigued.—Atlantic

## MORNING DEVOTED TO DECORATING GRAVES IN BOTH THE CEMETERIES

From the time of the arrival of the first train until long after noon throngs kept pouring down Main street in the direction of the two cemeteries. Men, women and children, riding in autos or traveling on foot seemed as proud of their floral burdens as the young married man preparing for his first Santa Claus visit. There was no discrimination in creed or color, sex or nationality for all seemed to view one with the other in testifying to love of those who had gone before.

The train from Reno brought in huge crates of the finest and freshest flowers seen in Tonopah, including the most costly cut plants, and an abundance of the simplest greenery and shrubs to give a refreshing color to the dull landscape of the desert. Lilies, jonquils, poppies, sweet Elyssum, carnations, daisies and even the princely tuberose appeared in countless numbers for distribution in the city of the dead.

At both cemeteries the display was of the most lavish order and the regret was expressed that the management of the cemetery did not encourage the cultivation of a natural growth. In this connection it may be said that a movement having for its object the improvement of the cemetery is about to be crowned with success owing to the Tonopah Extension company having agreed to give free water for a pipe line from the Victor to the new place of burial. This will furnish sufficient flow for irrigation and as soon as the water is introduced a later effort will be made to secure concerted action by lot owners.

By request of the Knights of Columbus memorial mass was held this morning at St. Patrick's church when the knights attended in a body. The several fraternal orders were represented at the cemeteries by committees who took care of the graves of their former comrades. The graves of the Grand Army and Spanish War Veterans in the old cemetery are in a group, but there is no recognized plot and action will be taken to have this omission supplied by next year so there will be an enclosed plot for the old soldiers.

## PAY ROLL GETTING READY FOR SHIPMENT

CARLOAD OF ORE IN DUMP SAVED  
FROM THE MAIN  
SHAFT

Shipment of ore will shortly be begun from the Payroll mine, situated about eight miles beyond Crow Springs. Yesterday the property was visited by James Forman, Wm. Forman, C. K. Jarvis, Dr. Masterson and W. H. Roberts. The main shaft is down 200 feet and on the bottom level a drift has been sent out 26 feet on the vein, which is two and one-half feet in width. About a carload of excellent ore is on the dump. The shaft is equipped with a fifteen horse power gasoline engine. Another shaft on a parallel vein of shipping grade is down 26 feet. It is planned to ship regularly from this property as soon as the drift has been advanced far enough to enable a stope to be started.

### DETAILS OF THE DEATH OF TONOPAH ENGINEER

The following clipping from the Guernsey Evening Press gives additional information about the death of the late Montague Middleton-Barney, who was well known as one of the engineering staff of the Tonopah Mining company.

The following are extracts from a letter received by the widow of Lieut. Montague Middleton-Barney, Royal Engineers, from the officer commanding the tunnelling company to which he belonged:

"I am writing with regrets and sympathy to tell you of the gallant death of your husband. There was an attack this morning (April 27) with gas by the enemy. Your husband had charge with his miners of a section of the trench. He was killed by a shell with two other men on the firing step, gallantly holding the Germans back.

"Though so short a time in my company, my appreciation of his value as an officer and man we reshown by my making him one of my four section commanders. In his short time he took over a section which had rather fallen to pieces, and in a few days, by his personality, pulled it together and did splendid work.

"I can ill afford to lose him as an officer, and from my selfish point of view I lose a friend as well."

Lieut. Montague Middleton-Barney was a son of Mrs. Barney of High Street, who is residing temporarily in London, and married a daughter of the Rev. J. Le Brun, Vicar of Alderney. He was a warm friend of Mr. and Mrs. June Peck of Tonopah.

### DEATH OF DONALD FERGUSON ACTIVE GOLDFIELD OPERATOR

Donald Ferguson, a pioneer mining engineer and mine manager of Goldfield, died in San Francisco Sunday. Since going to Goldfield, Mr. Ferguson traveled widely in South America and Mexico.

"Laughter—the best of human fruit, wholly sane and comforting." If you want amusement, an evening of jollity, see "The Schoolmistress," the senior play at the Butler theater, Friday night, June 2. Admission, 50c. Adv. M3011

MR. AND MRS. ROGER STENSON are enjoying a vacation among friends in Virginia City and expect to return next week.

## MRS. N. J. DEVINE DIES AFTER LONG ILLNESS

ONE OF THE EARLIEST SETTLERS  
OF NYE COUNTY GOES TO  
REST

Mrs. N. J. Devine died this morning at seven o'clock after an illness extending over a period of nearly three years. The immediate cause of death was dropsy.

The deceased was one of the early settlers of Nye county coming here during the Tybo boom when Mr. Devine ranked as one of the wealthiest men in this part of the state. He invested extensively at Tybo and Bristol and sank a fortune in those camps. Mr. Devine was the soul of honor and he never rested until he paid off every cent of his obligations. His word was bond. When the discovery of Tonopah became known the Devines came here in time to make some excellent inside locations. Altogether the Devine family lived forty-three years in this county and also spent some time at Austin.

Mrs. Devine was 72 years of age and leaves an invalid daughter. She was a member of the Altar society of the Catholic church and all members of that organization are requested to attend the funeral which will be held tomorrow morning at 10 o'clock from the church. Interment will be in the local cemetery. Deceased was a woman of lovable and gentle disposition as she never complained during her long and trying illness. She was born in Covington, Ky., and was married in Chicago where Mr. Devine had accumulated quite a fortune before he decided to try his fortune in the west. The husband died in Austin nearly three years ago.

### NEW TONOPAH MAP

Within the past four years, and subsequent to the 1912 edition of the Tonopah District Map, which was compiled and published by W. J. Moran, mining engineer, a number of operating companies in this district have acquired numerous interests in mining claims lying adjacent to their original holdings. Many of the claims held by individuals have changed hands during this period and are now incorporated into the holdings of new mining companies. Numerous locations of mining claims have also been made since the publication of the 1912 edition, the latest of the Tonopah district in publication.

As a result this map is rather incomplete in a measure, and has caused many requests for a new map of the Tonopah district. In compliance with these various requests Mr. Moran has decided to compile and publish a new map of this district, and at the present time is busily engaged in collecting data to be used in its preparation. It will be accurate and complete in every detail. Only surveyed claims, whose positions have been accurately determined will appear on the new map.

Parties desiring their claims to appear on this map are advised to confer with Mr. Moran, at Tonopah.

### NOTICE TO ALTAR SOCIETY

The members of Altar society are requested to be assembled at undertaking parlor, at 9:00 o'clock Wednesday morning for funeral of Mrs. Margaret Devine and from thence to the Catholic church.

By order of the president,  
Adv. M3011. MRS. ALICE HODSON

## PERSONAL

MRS. JOHN MURRAY left this morning for Carson City.

HARRY ATKINSON returned this morning from Carson City.

MRS. DAVE PRESS arrived from San Francisco on yesterday morning's train.

GEORGE SOUTHWORTH and family returned from Reno today after making a business trip.

H. D. MOORE, who came up from San Francisco to inspect the local mines returned this morning.

A. F. GEGAN, agent of the Hercules Powder company, departed this morning for Mina.

CHARLES D. LAING, president of the Rescue-Eula, who has been here for several days returned to the coast this morning.

ED UREN and wife and Mr. and Mrs. James McKay have returned from a pleasant outing at Darrough's hot springs.

## TWINS BRING BONUS FROM GOVERNMENT

ALLOWANCE OF NURSING MONEY  
TO ENSURE HEALTH OF  
THE BABIES

(By Associated Press.)  
BERLIN, May 30.—A mother who gives birth to twins, or to triplets, in Germany is entitled not only to the "nursing money" and the "weekly war assistance" which the government provides for its needy women, but may collect the prescribed sum in duplicate or triplicate according to the number of children born, according to a ruling published by the Imperial insurance bureau.

The decision was the outcome of the suit of a Berlin woman, who, giving birth to twins was refused nursing money and the weekly war allowance for more than one child. The insurance branch bureau in her district held that the law permitted only one payment regardless of the number of children born.

The Imperial bureau, which controls all the municipal branches in the empire, holds that it is of the utmost importance for every mother to be nourished in the very best possible way; and that two or three children require more nourishment from the mother than one.

## AMUSEMENTS

BUTLER THEATER

Blanche Ring, the celebrated comedienne, has been coaxed into motion pictures by Oliver Morosco and will be seen at the Butler this evening in "The Yankee Girl," an adaptation of her great musical comedy success of several seasons ago. The change of artificiality often lodged against musical productions never applied to "The Yankee Girl" with its breezy wit and capital situations. It applies even less to the filmization in view of the beautiful marine scenes taken at the world-famous Catalina Islands, and the hacienda scenes taken at the Fernandez Sanchez ranch house, a landmark of 150 years old halfway between Los Angeles and San Gabriel, and one of the historic taverns of the Mission days. The dramatic possibilities that have been developed from the Blanche Ring musical hit by the simple expedient or staging it in natural scenery, a thing only possible in motion pictures, opens up a new utility for the higher class musical comedies. Blanche Ring is splendid in "The Yankee Girl."

The preliminary reel will be Burton Holmes travel pictures, "Old and New Manila," showing Manila just after the Spanish-American War, and the Manila of a few short months ago. See what Uncle Sam has done in fourteen short years.

Tomorrow, another one of those animal comedies, and Alice Brady and Holbrook Blinn in "The Ballet Girl," a story of life behind the footlights.

Tell us not in mournful numbers, Life is stupid, dull and gray. Shall we wake you from your slumbers?

Come out to the senior play. "The Schoolmistress," Pinero's finest comedy.

Butler Theater, Friday night, June 2. Adv. M3001

H. R. McFADDEN, auditor of the Nevada Industrial Commission, came in this morning on his regular visit of inspection.
